### Benefit

## Golf Tournament

### June 25th, 2009

### Chester Golf Club

Chester, SC

10:00 a.m.

### Shotgun Start

# PURPOSE

Our goal is to help raise fund's for Rob McKay's medical bills. Rob suffers from Lou Gehrig's Disease also called ALS. Rob is seeking a new treatment offered in Germany that insurance does not cover. This is a huge burden on his family, already dealing with difficult and uncertain times.

## • What is Lou Gehrig's Disease?

ALS (amyotrophic lateral sclerosis) is a progressive neurodegenerative disease that attacks nerve cells and pathways in the brain and spinal cord. When these cells die, voluntary muscle control and movement dies with them. Patients in the later stages of the disease are totally paralyzed, yet in most cases, their minds remain sharp and alert.

## • Fact Sheet

- Every day, an average of 15 people are newly diagnosed with ALS - more than 5,600 people per year.
- The average life expectancy of a person suffering from ALS is two to five years from time of diagnosis.
- Heredity can be a factor risk concerning the disease, but it also can reach everybody, anywhere.

# PROFILE

Your contribution and participation will be tremendously appreciated by Rob, his wife Cathy, and his son Bo. They are currently making arrangements to begin a newly approved stem cell treatment in Germany. The procedure for this treatment, not including travel arrangements, adds up to \$10,400. All donations and proceeds from this tournament will aid in his ability to receive this treatment. Please come and meet the McKay's at such a worthwhile event.
